¹ The stroke length varies with the combination with the mounting plate above.
Note: The Permissible Load and Mass each indicate when used as a pair of 2 units.

Slide Rail

Rail length $L (\pm 0.8)$	Stroke length $S (\pm 3)$	n	Mounting hole $n+1$	Permissible load ¹ N	Mass g
150	68	1	2	40	104
250	168	2	3	40	130

650	568	6	7	40	233
750	668	7	8	40	259

¹ Model E36RS differs from other slide rails by assuming use with a single rail. Therefore, the value is per single rail for permissible load.
